## Invest Africa Connect 2018

February 5th-8th, Cape Town

# Who we are

Invest Africa was founded in 2013 as a platform for business leaders, investors, and entrepreneurs to gain insight and exposure to information and opportunities from Africa.

We are network of decision makers at top global organisations, fund managers, private investors, family offices, entrepreneurs, and policy makers – all with a common interest in Africa. Access to our network is by invitation only and is capped per chapter city.

Our vision is to be global private investors network with a multi-service platform for access and investment into Africa.

Invest Africa has recently merged with The Business Council for Africa. Together, IA-BCA constitutes a platform for business leaders, investors and entrepreneurs to gain insight into doing sustainable business in Africa, providing support and exposure to opportunities across the Continent.

IA-BCA share a desire to identify synergies that add value and strengthen their members' positions and business strategies in Africa.
